THE MOTHER

An international magazine of conscious, ecological, holistic and attachment parenting ~ from pre-conception throughout childhood

The Mother is unique among parenting publications. Created by an attachment parenting family in 2002, this grass roots publication is written by parents for parents. Our articles are visionary, cutting-edge, intelligent, and focused on optimal, heart-centred parenting.

The Mother contains articles from some of the leading thinkers in the field, including Joseph Chilton Pearce, James Prescott, Jean Liedloff, Binnie Dansby, Patrick Houser, Dr Thomas Verney, Dr Bruce Lipton, Michael Mendizza, Dr Sarah Buckley, Scott Noelle, Laura Shanley, Naomi Aldort, the late Jeannine Parvati Baker and Dr Richard House.

Our ethos is based on simple living, sustainability, spirituality, and awareness of children's biological needs.

Topics include: human-scale education, full-term breastfeeding, natural immunity, holistic pregnancy and birth, conscious conception and fertility awareness, hands-on fatherhood, understanding teenagers, The Continuum Concept, electromagnetic pollution in home and school, learning styles, natural living, dealing with childhood diseases naturally, vaccine awareness, home education, etc.

When you subscribe to *The Mother*, you're not just getting a magazine, you are helping to wake up the world.
